1a. Institutional Background

The University of Nebraska-Lincoln

The University of Nebraska at Lincoln (UNL) was chartered as a land grant university on February 15, 1869, as part of the Morrill Act, and serves as the comprehensive public university for Nebraska. UNL is part of the University of Nebraska system that includes the University of Nebraska at Omaha, the University of Nebraska at Kearney, and the University of Nebraska Medical Center. The elected state Board of Regents governs the system and has designated UNL the flagship campus.

UNL is a member of the Big 10 Conference, the Big 10 Academic Alliance and the Association of Public and Land Grant Universities (APLU). Nebraska is classified within the Carnegie "R1 Doctoral Universities-Highest Research Activity Category," accredited by the Higher Learning Commission and consists of eight academic colleges: Arts and Sciences, Business, Education and Human Sciences, Engineering, Fine and Performing Arts, Graduate Studies, Journalism and Mass Communications and Law. The university's continuous improvement strategic plan, N2025, centers on the premise that every person and every interaction matters.

Enrollment in the Fall of 2023 reflected the national trend of small enrollment declines from UNL's historical enrollment in 2017. UNL had 18,959 undergraduates and 4,641 graduate/professional students.

The College of Education and Human Sciences

The College of Education and Human Sciences (CEHS) was established in 2003 when the College of Human Resources and Family Studies and the Teachers College were combined. It is home to more than 3,100 students, 220 faculty, and 175 staff members, with 25% of students identifying as first-generation college students. CEHS includes seven academic units: Child, Youth and Family Studies (CYAF), Educational Administration (EDAD), Educational Psychology (EDPS), Nutrition and Health Sciences (NHS), Special Education and Communication Disorders (SECD), Teaching, Learning and Teacher Education (TLTE), and Textiles Merchandising and Fashion Design (TMFD). The college offers bachelor, master, specialist, and doctoral degree programs and certificate and endorsement-only programs.

UNL's programs that are nationally accredited include Speech Language Pathology Audiology (SLPA), accredited by the Council on Academic Accreditation in Audiology and Speech Language Pathology of the American Speech Language Hearing Association (ASHA) and School Psychology, accredited by the National Association of School Psychologists (NASP). Music education, offered in the College of Fine and Performing Arts, is nationally accredited by the National Association of Schools of Music.

1b. Standards for Admission, Retention, Transition, and Completion

Table 1b provides the major transition points and five gateways for all educator preparation candidates. As outlined in the table, UNL has 5 major gateways that focus on GPA, Coursework, Praxis Exam(s), and Other Requirements. Gateways 1 and 2 focus on Initial and Formal Admission, Gateways 3 and 4 focus on Candidate Retention, and Gateway 5 focuses on Candidate Completion.

Undergraduate students at the University of Nebraska at Lincoln who wish to become certified to teach must be formally admitted through a two-step application process to the educator preparation program in the College of Education, Health, and Human Sciences: initial application and formal admission.

Gateway 1: Initial Application

The following academic requirements must be met for an initial application to educator preparation:

 Meet the assured admission requirements for admission to the University of Nebraska

at Lincoln

- Submit an initial application to the educator preparation program
- Complete a criminal background check
- Have a cumulative grade point average of 2.5 or higher for coursework in the Universit

of Nebraska system

Gateway 2: Formal Admission

The following academic requirements must be met for formal admission into educator preparation:

- A minimum 2.75 cumulative GPA.
- Earned a minimum of 42 credit hours of college credit.
- Completion and submission of the Teacher Education Program

Application

Form.

Completion of TEAC 331 School and Society and EDPS 251

Fundamentals of

Adolescent Development for Education/EDPS 250 Fundamentals of Child Development for Education or an approved transfer course, (must be taken prior to or be in progress, the semester in which candidates applies to the program) with a 2.50 cumulative average in the two classes, and no grade lower than C; TEAC 259 Instructional Technology (must be taken prior to or be in progress, the semester in which a candidate applies to the EPP).

- Faculty recommendations.
- Completion of a formal criminal history review for CEHS, by the vendor approved

by CEHS (fee required).

 Specific programs may have additional outcomes that students must address as

part of the application process

Meet or exceed the minimum score requirements on all sections of the Praxis I

Core Academic Skills for Educators test (Reading- 156, Writing- 162, Mathematics- 150) *Note the Praxis I-Core was not a requirement for 2023-2024 candidates.

a. Since the elimination of the Praxis Core to requirement to meet basic skills, CEHS

determined that students meet or exceed the basic skills requirement through successful admission to the University of Nebraska-Lincoln, acceptance through the second admission process to a specific teacher education program, and the demonstration of the Rule 20 required minimum cumulative GPA of 2.75 to qualify for clinical practice.

Candidates who submit an initial application to educator preparation but who do not meet formal admission requirements may not continue in the educator prep course sequence until all formal admission requirements have been met

Gateway 3: Professional Coursework and Practicums

Candidates must maintain a 2.75 GPA or higher to progress through the educator preparation program. A grade of C or higher is required for pre-professional courses and no grade below a C+ is required for all professional education courses. Candidates are provided with assessment feedback during all practicum experiences that provides guidance and expectations at these transition points.

Gateway 4: Clinical Practice Audit

The clinical practice audit provides an opportunity to review a candidate's program progression, confirm achievement of a 2.75 minimum GPA, completion of required coursework, review clinical experience requirements, and verify completion of the background check required prior to clinical practice.

Gateway 5: Clinical Practice

Gateway 5 is the last transition and the point of program completion. Successfully completing the semester-long clinical practice includes meeting the criteria for success for the two key assessments, the Nebraska Clinical Practice Evaluation and a Clinical Experience grade of Pass. The UNL Certification Officer recommends the candidate for the completed endorsement based on meeting the endorsement requirements, including satisfactory completion of clinical practice.

1b. Provide a table showing the major transition points or endorsement gateways and related expectations/assessments for the endorsement.

Institutional					
Criteria	Gateway #1	Gateway #2	Gateway #3	Gateway #4	Gateway #5

	Background Check			requirements	Practice Assessments

1c. Describe all field experiences required for the endorsement, including the number of hours for practicum experiences and the number of hours/weeks of clinical experience or internships

Practicum experiences begin for candidates immediately following formal admission to the educator preparation program. Each endorsement program has a sequence of beginning, intermediate and final practicum experiences before the clinical practice semester. Each of these experiences builds in complexity and each level is a prerequisite for the next. The scope and sequence of practicum experiences and the associated performance assessment were built to align with the clinical practice performance assessment. The partnership with schools and the support provided by faculty are the center of the successful practicum experience.

Beginning Practicum EDPS 297 Professional Practicum II (secondary)

Teacher candidates observe the developmental levels of 7-12 students in the school setting. The practicum consists of observations which are completed in either a middle school or high school classroom practicum placement. This practicum runs concurrently with EDPS 251 Fundamentals of Adolescent Development for Education (secondary).

Intermediate Practicum

SPED 415A Practicum in Reading and Writing Disabilities: Elementary Students

Special education candidates complete this intermediate practicum while taking the parallel course SPED 415 Reading and Writing Disabilities: Elementary Students. This practicum provides the candidates opportunity to apply the theory and techniques for assessment and teaching early literacy skills in small groups and one-on-one for children who struggle with literacy.

TEAC 397 Professional Practicum III – 1 credit hour (secondary)

Secondary candidates complete SPED 397 Professional Practicum Experience III for 1 credit hour. This practicum consists of working in a classroom within the local school district and is taken concurrently with TEAC 451 Learning and Teaching Principles and Practices (3 credits) specific to the endorsement area. The practicum includes a building orientation in the placement school to help candidates learn more about the school's population and its community to assist in meeting students' needs. The UNL supervisors provide support during this practicum and the performance assessment is completed by faculty, the mentor teacher, and the teacher candidate.

Final Practicum SPED/TEAC 397 Professional Practicum III –2 credit hours (secondary)

This practicum varies based on endorsement area and is taken concurrently with TEAC 452 Curriculum Principles and Practices for 3 credit hours. In this experience, candidates move toward independence in facilitating 7-12 learning, collaborate with classroom teachers and deliver small group and whole group instruction. Expectations to demonstrate content-specific knowledge and pedagogy are added at this level. The performance assessment is completed by faculty, the mentor teacher, and the teacher candidate.

Clinical Experience

The capstone to the field experiences is clinical practice. UNL requires each teacher candidate to complete 16 weeks in the classroom placement, exceeding the 14 weeks required by Rule. Dual-endorsed candidates complete a minimum of a full PK-12 semester, with half in each placement. Candidates register for the appropriate clinical practice course based on their endorsement area and/or level.

Endorsement Program	Course Name	Credits	Type of Field Experience	Total Number of Hours

Section 2: Endorsement Program Key Assessments and Related Data

Artifact 1: Summary of Key Assessments for Initial Programs

	Name of Assessment	Type or Form of Assessment		When Administered
1	Content-Praxis II or GPA	Calculation	Standard Calculation of GPA based on 4.0 scale	At admission & before clinical placement
	GPA in content courses Praxis II	Exam	Praxis II exams are subject-specific, standardized tests created and administered by ETS to measure content knowledge. NDE determines minimum passing scores and which endorsements require an exam	
	Content - Knowledge	Formative	CEHS-created rubric (Items 4, 5, 6)	Intermediate/Final
2	14 Dimensions Rubric Nebraska Clinical Practice Evaluation	Summative	NDE-created Clinical Practice Assessment. (Items 4, 5)	Practicums Clinical Practice
	Learner/Learning Environments	Formative	CEHS-created rubric (Items 4, 5,6)	Intermediate/Final
3	14 Dimensions Rubric Nebraska Clinical Practice Evaluation	Summative	NDE-created Clinical Practice Assessment (Items 1,2,3)	Practicums Clinical Practice
	Instructional Practices - Knowledge	Formative	CEHS-created rubric (Items 4, 5,6)	Intermediate/Final
4	14 Dimensions Rubric Nebraska Clinical Practice Evaluation	Summative	NDE-created Clinical Practice Assessment (Items 6, 7,8)	Practicums Clinical Practice
	Instructional Practices-Effectiveness	Formative	CEHS-created rubric (Items 4, 5,6)	Intermediate/Final
5	14 Dimensions Rubric Nebraska Clinical Practice Evaluation	Summative	NDE-created Clinical Practice Assessment (Items 6,7,8)	Practicums Clinical Practice
_	Professional Responsibility	Summative	NDE-created Clinical Practice Assessment (Items 9, 10)	Clinical Practice Semester
6	Nebraska Clinical Practice Evaluation			
7	Overall Proficiency	Summative	NDE-created Clinical Practice Assessment (all Items)	Clinical Practice
	Nebraska Clinical Practice Evaluation			After first and third years of employment
	NDE Follow-Up Survey		employer	

The Nebraska Clinical Practice Evaluation is completed during the clinical practice semester. Using a four-point system to measure performance, the instrument follows the 10 InTASC standards organized into four general categories: The Learner and Learning Standards (Items 1, 2, 3); Content Knowledge (Items 4, 5); Instructional Practice (Standards 6, 7, 8); and Professional Responsibility (Standards 9,10). Validity and reliability are in Appendix B.

Key Program Assessment #1: Content Knowledge – Praxis II and GPA

Praxis II examinations are a series of subject-specific, standardized tests created and administered by the Educational Testing Service (ETS). Each examination measures content knowledge within a certification area, and results are reported as an overall score and multiple subscale scores. The Nebraska Department of Education (NDE) determines the required test to be taken and the minimum overall passing score for each certification area. UNL teacher candidates are strongly encouraged to take the exam prior to applying for licensure and most candidates complete it the semester before their clinical practice. UNL does not require completion of the Praxis II exam as a program requirement, as it required for NDE licensure. ETS provides test scores to UNL, and data for the examinations are reported and analyzed annually.

Key Program Assessment #2 Content Knowledge: 14 Dimensions and Clinical Practice Assessment

The 14 Dimensions Rubric is a CEHS-designed, valid and reliable assessment instrument aligned to InTASC Standards, NAEYC Standards and the NDE Clinical Practice Assessment. This rubric is used by practicum supervisors and faculty in the intermediate and advanced practicums. Items 4, 5 and 6 are required for assessment in all practicums to demonstrate progress across the program but individual endorsement areas may elect to use more or all of the items.

The Clinical Practice Assessment, a 15-item instrument aligned to InTASC Standards 1-10, was developed, validated, and underwent reliability tests by the NDE in collaboration with the educator preparation programs in the Nebraska and the NDE requires its use. UNL's mentor teachers, university supervisors, and teacher candidates use the four-level rubric to formatively assess candidates after approximately 50% of their clinical practice experience has been completed. Mentor teachers, university supervisors, and teacher candidates complete the instrument a second time at the conclusion of the clinical practice experience, as the summative assessment for candidates. It provides data used to inform program improvement. Summative data are collected and presented to faculty and reviewed annually by other stakeholders.

Key Program Assessment #3 Learner and Learning Environment: 14 Dimensions and Clinical Practice Assessment

The 14 Dimensions Rubric is a CEHS-designed, valid and reliable assessment instrument aligned to InTASC Standards, NAEYC Standards and the NDE Clinical Practice Assessment. This rubric is used by practicum supervisors and faculty in the intermediate and advanced practicums. Items 4, 5 and 6 are required for assessment in all practicums to demonstrate progress across the program but individual endorsement areas may elect to use more or all of the items.

The Clinical Practice Assessment, a 15-item instrument aligned to InTASC Standards 1-10, was developed, validated, and underwent reliability tests by the NDE in collaboration with the educator preparation programs in the Nebraska and the NDE requires its use. UNL's mentor teachers, university supervisors, and teacher candidates use the four-level rubric to formatively assess candidates after approximately 50% of their clinical practice experience has been

completed. Mentor teachers, university supervisors, and teacher candidates complete the instrument a second time at the conclusion of the clinical practice experience, as the summative assessment for candidates. It provides data used to inform program improvement. Summative data are collected and presented to faculty and reviewed annually by other stakeholders.

Key Program Assessment #4 Instructional Practices- Knowledge: 14 Dimensions and Clinical Practice Assessment

The 14 Dimensions Rubric is a CEHS-designed, valid and reliable assessment instrument aligned to InTASC Standards, NAEYC Standards and the NDE Clinical Practice Assessment. This rubric is used by practicum supervisors and faculty in the intermediate and advanced practicums. Items 4, 5 and 6 are required for assessment in all practicums to demonstrate progress across the program but individual endorsement areas may elect to use more or all of the items.

The Clinical Practice Assessment, a 15-item instrument aligned to InTASC Standards 1-10, was developed, validated, and underwent reliability tests by the NDE in collaboration with the educator preparation programs in the Nebraska and the NDE requires its use. UNL's mentor teachers, university supervisors, and teacher candidates use the four-level rubric to formatively assess candidates after approximately 50% of their clinical practice experience has been completed. Mentor teachers, university supervisors, and teacher candidates complete the instrument a second time at the conclusion of the clinical practice experience, as the summative assessment for candidates. It provides data used to inform program improvement. Summative data are collected and presented to faculty and reviewed annually by other stakeholders.

Key Program Assessment # 5 Instructional Practices- Effectiveness- 14 Dimensions and Clinical Practice Assessment

The 14 Dimensions Rubric is a CEHS-designed, valid and reliable assessment instrument aligned to InTASC Standards, NAEYC Standards and the NDE Clinical Practice Assessment. This rubric is used by practicum supervisors and faculty in the intermediate and advanced practicums. Items 4, 5 and 6 are required for assessment in all practicums to demonstrate progress across the program but individual endorsement areas may elect to use more or all of the items.

The Clinical Practice Assessment, a 15-item instrument aligned to InTASC Standards 1-10, was developed, validated, and underwent reliability tests by the NDE in collaboration with the educator preparation programs in the Nebraska and the NDE requires its use. UNL's mentor teachers, university supervisors, and teacher candidates use the four-level rubric to formatively assess candidates after approximately 50% of their clinical practice experience has been completed. Mentor teachers, university supervisors, and teacher candidates complete the instrument a second time at the conclusion of the clinical practice experience, as the summative assessment for candidates. It provides data used to inform program improvement. Summative data are collected and presented to faculty and reviewed annually by other stakeholders.

Key Program Assessment #6 Professional Responsibility: Clinical Practice Assessment

The Clinical Practice Assessment, a 15-item instrument aligned to InTASC Standards 1-10, was developed, validated, and underwent reliability tests by the NDE in collaboration with the educator preparation programs in the Nebraska and the NDE requires its use. UNL's mentor teachers, university supervisors, and teacher candidates use the four-level rubric to formatively assess candidates after approximately 50% of their clinical practice experience has been completed. Mentor teachers, university supervisors, and teacher candidates complete the instrument a second time at the conclusion of the clinical practice experience, as the summative assessment for candidates. It provides data used to inform program improvement. Summative data are collected and presented to faculty and reviewed annually by other stakeholders.

Key Program Assessment #7 Overall Proficiency: Clinical Practice Assessment and NDE Surveys

The Clinical Practice Assessment, a 15-item instrument aligned to InTASC Standards 1-10, was developed, validated, and underwent reliability tests by the NDE in collaboration with the educator preparation programs in the Nebraska and the NDE requires its use. UNL's mentor teachers, university supervisors, and teacher candidates use the four-level rubric to formatively assess candidates after approximately 50% of their clinical practice experience has been completed. Mentor teachers, university supervisors, and teacher candidates complete the instrument a second time at the conclusion of the clinical practice experience, as the summative assessment for candidates. It provides data used to inform program improvement. Summative data are collected and presented to faculty and reviewed annually by other stakeholders.

The NDE-developed Survey, a 15-item survey aligned to the 10 InTASC standards is conducted annually to provide Nebraska educator preparation institutions with information about the effectiveness of 1st and 3rd year teachers prepared by the institution from both the completer and employer perspective. NDE annually provides institution-specific, first- and third-year results to institutions.

7	Plans sequenced learning experiences and performance tasks linked to learning objectives	3.26	3.30
	Plans and implements multiple ways for students to demonstrate their knowledge and skills	3.18	3.25
8	Incorporates digital tools and technologies into instruction	3.24	3.41
	Uses evidence-based strategies to support critical thinking and content learning	3.07	3.28
	Organizes and manages the learning environment to maximize student engagement	3.19	3.30
9	Invites constructive feedback and responds positively	3.30	3.48
	Sets and implements goals to improve practice	3.20	3.35
10	Communicates professionally - oral, written, and electronic	3.30	3.44
	Responds to people, problems, and crises effectively	3.20	3.38

2022-2023 NDE Completer Teacher Survey for UNL-Trained 3rd Year Teachers

	Indicator	2022	2023
	Indicator	N=63	N=47
1	Uses knowledge of students to meet needs	2.81	3.00
	Builds on student strengths to facilitate learning	2.90	3.02
2	Identifies differentiation in student needs	2.78	2.96
	Differentiates instruction to meet student needs	2.60	2.79
	Brings multiple perspectives and cultural resources to content and discussions	2.98	3.04
3	Promotes a positive classroom environments through clear expectations	3.46	3.45
	Uses and communicates clear task and behavioral expectations to support an environment of learning	3.10	3.11
4	Uses and communicates content knowledge	3.22	3.11
	Uses academic vocabulary and grammar	3.16	3.15
	Provides opportunities for students to demonstrate their content knowledge	3.11	3.32
5	Helps students link concepts and engage in critical thinking	2.84	2.91
	Engages students in the development of literacy and communication skills	2.86	3.09
6	Matches instructions and assessments to learning objectives	2.92	3.04
	Uses formative and summative classroom assessments that facilitate learning	3.00	3.09
	Amends instructional strategies and adapts interventions as needed	2.73	2.85
	Provides differentiated instruction and assessments that positively impacts learning	2.68	2.85
7	Plans sequenced learning experiences and performance tasks linked to learning objectives	2.97	3.09
	Plans and implements multiple ways for students to demonstrate their knowledge and skills	3.00	3.04
8	Incorporates digital tools and technologies into instruction	3.13	3.17
	Uses evidence-based strategies to support critical thinking and content learning	2.81	2.87
	Organizes and manages the learning environment to maximize student engagement	2.86	2.91
9	Invites constructive feedback and responds positively	3.13	3.36
	Sets and implements goals to improve practice	2.95	3.19
10	Communicates professionally - oral, written, and electronic	3.27	3.26
	Responds to people, problems, and crises effectively	3.02	3.09

Nebraska Department of Education First- and Third-Year Teacher Survey Reports

The NDE developed Completer and Employer Survey Summary Reports are available at the links below. The summaries provide the survey items as well as statewide survey results. NDE also provides institution reports with links to reports available for review.

	2022*	2023
Statewide Report	2022 Nebraska First Year Teacher Survey: Summary Report	2023 Nebraska First Year Teacher Survey: Summary Report
	2022 Nebraska Third Year Teacher Survey: Summary Report	2023 Nebraska Third Year Teacher Survey: Summary Report
UNL Report	2022 Nebraska First Year Teacher Survey: University of Nebraska at Lincoln	2023 Nebraska First Year Teacher Survey: University of Nebraska at Lincoln
	2022 Nebraska Third Year Teacher Survey: University of Nebraska at Lincoln	2023 Nebraska Third Year Teacher Survey: University of Nebraska at Lincoln

^{*}The 2024 NDE 1st and 3rd Year Completer surveys had not been received at the time of this report so surveys used were from 2022 and 2023.

Artifact 3. Summary of Findings

Key Assessment 1: GPA and Praxis II Praxis

All Special Education K-6 candidates met the GPA requirement.

Candidate Praxis Content Exam for Special Education Generalists scores in 2022-2023 indicated an 97.06 % pass rate, almost equal to the state's pass rate. Of the exam subscales, candidates scored highest in Foundations and Professional Responsibilities (76.42%) and lowest in Assessment (69.95%).

Candidate Praxis Content Exam Special Education Generalists scores in 2023-2024 indicated an 100% pass rate, which exceeded the state's pass rate. Of the exam subscales, candidates scored highest in Assessment (78.21%) and lowest in Foundations and Professional Responsibilities (68.97%).

Key Assessment 2: Content Knowledge-14 Dimensions and Clinical Practice AssessmentSpecial Education 7-12 candidates demonstrated consistent scores between intermediate and advanced practicums as they progressed through the field experiences.

The 2022-2023 clinical practice assessment item of Content Knowledge had the highest mean of 2.46. The lowest mean on the 2022-2023 clinical practice assessment in this area was in Application of Content (2.16). The mean scores indicate most candidates were at or above Proficient levels.

Key Assessment 3: Learner/Learning Environments-14 Dimensions and Clinical Practice Assessment

Special Education K-6 candidate data in both the intermediate and advanced practicums reflect progress through the sequence in this area and were considered Emerging.

The 2022-2023 clinical practice assessment item Learner Development had the highest mean (2.88) and Learner Differences had the lowest mean (2.42). The 2023-2024 clinical practice assessment item of Learner Development had the highest mean (2.25) and Learning Environments had the lowest mean (1.92). Mean scores indicate most candidates rated at least Proficient in this category.

Key Assessment 4: Instructional Practices-Knowledge-14 Dimensions and Clinical Practice Assessment

Special Education K-6 candidate data in both the intermediate and advanced practicums reflect candidates rate at the Emerging level indicating forward progress through the practicum sequence in this area.

The 2022-2023 clinical practice assessment reflected candidates had the high mean (2.42) in Planning for Instruction and Instructional Strategies-Uses research-based instructional strategies, and the lowest mean (2.25) in Instructional Strategies-Incorporates digital tools and Instructional Strategies-Uses engagement to enhance learning. The 2023-2024 clinical practice assessment reflected candidates had the high mean (2.33) in Planning for Instruction and the low mean (1.83) in Instructional Strategies-Uses research-based strategies. Mean scores indicate most candidates were rated at Proficient or above.

Key Assessment 5: Instructional Practices-Effectiveness-14 Dimensions and Clinical Practice Assessment

Most Special Education K-6 candidates demonstrated Proficiency in this area on the 14 Dimensions rubric.

The 2022-2023 clinical practice assessment reflected candidates had the high mean (2.25) in Application of Content and Assessment-Assess for Learning, and the low mean (2.08) in Assessment-Using classroom assessment. The 2023-2024 clinical practice assessment reflected

all items, Application of Content-Develops literacy and communications skills, Assessment-Uses classroom assessment and Assessment-Assess for learning had a mean of 2.08. Mean scores indicate most candidate were rated at or above the Proficient level.

Key Program Assessment #6 Professional Responsibilities-Clinical Practice Assessment

Special Education K-6 candidates performed well in professional responsibilities. The 2022-2023 clinical practice assessment reflected the highest mean (2.75) in Professional Learning and Ethical Practice and the lowest mean (2.42) in Leadership and Collaboration-Uses professional communication. The 2023-2024 clinical practice assessment reflected the highest mean (2.58) in Professional Learning and Ethical Practice and the low mean (2.42) in both Leadership Collaboration-Conveys professional demeanor and Leadership Collaboration-Uses professional communication. Mean scores indicate the most students rated at or above Proficient.

Key Assessment #7 Professional Responsibilities – Clinical Practice Assessment and NDE Surveys

Special Education K-6 candidates demonstrate knowledge and skills related to overall proficiency as measured by the Nebraska Clinical Practice Evaluation and the NDE Surveys. Results from the Nebraska Clinical Practice Evaluation for secondary content rated all completers at Proficient and Advanced levels. Mean scores for Special Education K-6 candidates in 2022-2023 meaning ratings were at or above the Proficient level on all indicators. Mean scores during 2023-2024 indicate that most students were at or above the Proficient level on most indicators. Application of Content-Engages students in critical thinking and Instructional Strategies-Uses research-based instructional strategies both had mean scores of under 2.0.

Secondary completer data is not disaggregated by content in the NDE Surveys so conclusions specific to endorsement-specific completers cannot be made.

NDE Survey of UNL-Trained 1st Year Teachers by Principals

Survey data on the 2022 First-Year Teacher Preparedness Ratings by principals, students' means ranged from a low 2.87 in Application of Content to a high of 3.18 in Learning Environments. For the 10 Indicators included on the 2023 NDE First-Year Teacher Preparedness survey by Principals survey, students' means ranged from a low of 2.76 in Learner Differences to a high of 3.11 in Learning Environments.

NDE Survey of UNL-Trained 1st Year Teachers by Teachers

For the 10 Indicators included on the 2022 NDE First-Year Teacher Preparedness Ratings survey, students' means ranged from a low of 2.87 for Assessment for Learning to a high of 3.17 in Learning Environments. For the 10 Indicators included on the 2023 NDE First-Year Teacher Preparedness survey, students' means ranged from a low of 2.63 in Learner Differences to a high of 3.41 in Learning Environments.

NDE Survey of UNL-Trained 3rd Year Teachers by Principals

On the 2022 NDE Third-Year Teacher Preparedness survey by Principals survey, students' mean scores ranged from a low of 3.07 in Instructional Strategies to a high of 3.32 in Content. Survey data on the 2023 Third-Year Teacher Preparedness Ratings by principals, reflected students' mean scores ranged from a low of 3.19 in Assessment to a high of 3.51 for Learning Environments.

NDE Survey of UNL Trained 3rd Year Teachers by Teachers

For the 10 Indicators included on the 2022 NDE 3rd Year Teacher Preparedness Ratings by Teachers survey, means ranged from a low of 2.6 for Learning Differences to a high of 3.46 for Learning Environment. For the 10 Indicators included on the 2022 NDE 3rd Year Teacher Preparedness Ratings by Teachers survey, means ranged from a low of 2.79 for Learning Differences to a high of 3.45 for Learning Environments.

Section 3: Use of Related Data and Information for Continuous Program Improvement of Endorsement Program

Continuous improvement is essential to all educator preparation programs (EPP). The UNL EPP has involved stakeholders in annual reviews of key assessment data since 2019, including PK-12 educators, faculty and teacher candidates, and other campus personnel. These discussions combined with program faculty meetings and Department Chair discussions resulted in the formal Quality Assurance System to ensure a well-defined continuous improvement process. The Rule 24 folios include 2022-2023 and 2023-2024 data for key assessments, with some data collection ranges beginning in 2021-2022. This data was available at the Spring 2024 Professional Education Committee and have resulted in changes as identified in Section 3.

Course Changes

To expand candidate connection to the secondary education program early in the course sequence, faculty developed and implemented TEAC 161 Teaching Matters (3 credit hours). Secondary faculty teach this course on a rotation, and it is restricted to secondary teacher education majors. The course is designed to introduce critical issues, responsibilities, roles, and identities to secondary education majors through school site visits, lectures and inquiry into what it means to be a secondary school teacher. This course is in its second year of implementation so the impact on candidate retention is not yet known.

Candidates' Knowledge and Skills Related to Classroom/Behavior Management

Consistent discussions have occurred related to behavior and/or classroom management. EPP data and feedback from both internal and external PEC members indicated that program

completers and current teachers need more training and support in planning and implementing meaningful and effective classroom and/or behavior management strategies. Based on this feedback, the early childhood and secondary education faculty have developed effective ways to strengthen this content more intentionally in the curriculum. Greater and more intentional levels of collaboration and partnership with school districts and current practitioners were implemented to equip candidates for the current demands of professional teaching careers and provide sustainable support to EPP completers.

Recruitment

Secondary faculty continue to be active in state organizations and talk with students from other campus units about the educator preparation programs. This is in addition to the work of the CEHS recruiter.

To expand candidate connection to the secondary education program early in the course sequence, faculty developed and implemented TEAC 161 Teaching Matters (3 credit hours). Secondary faculty teach this course on a rotation, and it is restricted to secondary teacher education majors. The course is designed to introduce critical issues, responsibilities, roles, and identities to secondary education majors through school site visits, lectures and inquiry into what it means to be a secondary school teacher. This course is in its second year of implementation so the impact on candidate retention is not yet known.

Quality Assurance System

The EPP implemented a Quality Assurance System (QAS) in the Spring of 2019, with full implementation delayed by the Covid-19 pandemic. The process, while fully implemented, continues to develop and refine personnel, infrastructure and systems within the UNL parameters on data collection The CEHS Professional Education Committee (PEC) was established and provides policies and guidance to educator programs that prepare candidates for positions in the P-12 schools; established a conceptual model for all programs and approved an assessment system to describe the quality and type of learning of candidates in the various programs; solicits plans for improving the quality of candidates in each of the programs; and systematically monitors the quality of programs using the accreditation standards. PEC consists of Chairs of departments with primary responsibility for the preparation of the educational professionals, the UNL Certification Officer, and the following additional members, each of whom serve a three-year term: four to eight CEHS faculty members selected by faculty colleagues, four representatives from the College of Arts and Sciences and/or the College of Fine and Performing Arts selected by the Deans of those colleges, four teachers from P-12 education appointed by the UNL Certification Officer (in consultation with the Executive Director of the Nebraska State Teachers Association), one speech and language therapist, two guidance counselors or school psychologists appointed by the Dean of CEHS, and two school administrators appointed by the Dean of CEHS. PEC plays a major coordinating role in the accreditation process and involves the faculty of the College in addressing issues related to accreditation and continuous quality improvement.

Program Changes for Special Education K-6 Endorsement

UNL's Special Education K-6 endorsement is closely aligned to standards set by NDE's Rule 24 as demonstrated in the matrix annually submitted and student data collected. Program changes since the last NDE program review consist primarily of revisions within courses. No major program changes in the Special Education K-6 sequence have been made.

Since the last review, Special Education faculty have implemented a para to Special Education teacher program with a Lincoln Public Schools. This program does not change the delivery mode or coursework candidates need to complete to meet licensure requirements.

In 2023 CEHS partnered with Lincoln Public Schools and implemented a special education apprenticeship program. Apprentice processes are guided by the federal Department of Labor (DOL) in conjunction with the Nebraska Department of Education. Candidates complete the same coursework as others pursuing the Special Education K-6 endorsement, but courses are structured with more competency-based focus to comply with the DOL requirements. This provides candidates the opportunity to get a teaching certificate with no tuition, books or materials cost, retaining employment for the duration of the program, and gain information through an immersive experience of application of skills and knowledge.

3. Subject Matter Knowledge for Teaching. Makes content knowledge accessible to students. INTASC 4, NAEYC 5a; NAEYC 5b; NAEYC 5c

Unacceptable	Emergent	Sufficient	Advanced
Unacceptable Does not demonstrate sufficient content knowledge for the lessons that are delivered; Is unable to use that content knowledge. Teaches erroneous knowledge. Does not connect individual lessons to district or state curriculum objectives or content standards.	Emergent Demonstrates mastery of most common content knowledge for the lessons that are delivered; and shows mastery of some but not all specialized knowledge necessary for the lesson. Makes some errors in the content delivered to students. Usually accommodates lessons appropriately in response to student confusion or errors in content.	Sufficient Demonstrates mastery knowledge of common and specialized content appropriate to the lessons are delivered; and demonstrates an understanding of student needs, and of effective teaching; and make some connections among those. Makes few or no errors in content. Accommodates lessons appropriately in response to student confusion or errors in content. Content is clearly aligned district or state curriculum objectives and content standards.	Excellent mastery in the content appropriate to the lessons; Anticipates students misconception and modifies instruction to respectfully confront thesis; Uses their knowledge, appropriate guidelines/standards, and other resources to design, implement, and evaluate meaningful, challenging curricula for each child. Lessons are effectively delivered and demonstrate good connection between knowledge of content, student and teaching

8. Inclusive Practices. Adapts curriculum and instruction for students with disabilities. INTASC 2, 10; NAEYC 1a, 2a, 3a, 5a

Unacceptable	Emergent	Sufficient	Advanced
Resists having students with disabilities or diversities in the classroom. Ignores or is disengaged from students with disabilities or diverse students.	Attempts to engage and include students with disabilities, but these attempts are awkward and generally ineffective. Lessons show very limited differentiation. Modifications made to accommodate students with disabilities single out or draw attention to the disability.	Is welcoming of students with disabilities and diverse students in the classroom. Adapts teaching to different learning styles of students and these adaptations are effective most of the time. Maintains appropriately high expectations for all students.	Is actively engaged with students with disabilities. Uses heterogeneous, fluid groupings of students during instructions. Proactively thinks of ways to engage and include students. Differentiates instruction for individual students while maintaining appropriately high expectations for students. Is consistently effective.

12. Instructional Tools and Technology. Integrates appropriate technologies for enhancing learning tasks. INTASC 5, 8, NAEYC 4b

Unacceptable	Emergent	Sufficient	Advanced
The teacher candidate avoids technology and cannot articulate appropriate uses for technology in instruction.	Some technology is available in the classroom and the school, and the teacher candidate uses it on a limited basis. Technology is used as an "add on" to instruction and is not integral to instructional goals and activities.	The teacher candidate uses available technology in the classroom, and integrates technology into teaching. Can articulate creative uses for existing technology.	Technology is infused into and transforms instruction in effective ways. Readily adopts emerging technology and seeks out opportunities to learn about new technologies that are not already available in the school.

			conduct as a resource
			for decision-making.
0	1	2	3

14. Reflective Practices and Professional Growth. Continually evaluates how choices and actions affect students and others in the learning community, makes necessary adjustments and actively seeks opportunities to grow professionally. INTASC 2, 9; NAEYC 4d, 6a, 6b, 6c, 6d, 6e

Unacceptable	Emergent	Sufficient	Advanced
Does not attend professional development opportunities. Reflects on practice only when prompted or required to do so. Reflection is merely recounting what occurred and includes no conclusions, interpretations, or recommendations for future practice. Does not make judgments or form opinions for refinement or adjustments to teaching.	Attends required professional development activities. Draws conclusions or opinions about what occurred during teaching, but is unsure what to do about it. Does not necessarily take action based on feedback or observations.	Attends all professional development activities that the cooperating teacher attends; and attends local or state conferences if opportunities arise; and applies information from professional development activities. When reflecting on instruction, makes one or more specific suggestions for revising teaching. Uses feedback to refine future teaching.	Seeks out professional development opportunities within and beyond the school setting. Is planful in advancing professional development. Routinely uses feedback and personal reflection to continuously refine and improve teaching. Increasingly differentiates instruction based on feedback or personal observation of the classroom and students. Shares information with others from professional development opportunities or from personal reflections.

Standards

Learner Development. The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary **INTASC**individually within and across the cognitive, linguistic, social, emotional, 2013.1 and physical areas, and designs and implements developmentally appropriate and challenging learning experiences. Leadership and Collaboration. The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to **INTASC**collaborate with learners, families, colleagues, other school professionals, 2013.10 and community members to ensure learner growth, and to advance the profession. Learning Differences. The teacher uses understanding of individual INTASCdifferences and diverse cultures and communities to ensure inclusive 2013.2 learning environments that enable each learner to meet high standards. Learning Environments. The teacher works with others to create **INTASC**environments that support individual and collaborative learning, and that 2013.3 encourage positive social interaction, active engagement in learning, and self-motivation. Content Knowledge. The teacher understands the central concepts, tools INTASCof inquiry, and structures of the discipline(s) he or she teaches and creates 2013.4 learning experiences that make the discipline accessible and meaningful for learners to assure mastery of the content. Application of Content. The teacher understands how to connect concepts **INTASC**and use differing perspectives to engage learners in critical thinking, 2013.5 creativity, and collaborative problem solving related to authentic local and global issues. Assessment. The teacher understands and uses multiple methods of **INTASC**assessment to engage learners in their own growth, to monitor learner 2013.6 progress, and to guide the teacher's and learner's decision making. Planning for Instruction. The teacher plans instruction that supports every **INTASC**student in meeting rigorous learning goals by drawing upon knowledge of 2013.7 content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context. Instructional Strategies. The teacher understands and uses a variety of **INTASC**instructional strategies to encourage learners to develop deep 2013.8 understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways. Professional Learning and Ethical Practice. The teacher engages in INTASCongoing professional learning and uses evidence to continually evaluate 2013.9 his/her practice, particularly the effects of his/her choices and actions on

	others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

14 Dimensions Rubric Validity Report

Nebraska Department of Education Clinical Evaluation Content Validity Report

Study completed and submitted by Dr. Barbara Sunderman, Hastings College

On October 13, 2016, at the Nebraska Association of Colleges of Teacher Education general meeting and on October 14, 2016, at the regular meeting of the NEBRASKA COUNCIL ON TEACHER EDUCATION Educator Preparation Advisory Committee to the Nebraska State Board of Education a presentation of the Nebraska Clinical Rubric was given. There were 50 individuals in attendance from both meetings, all stakeholders in education in Nebraska. Of those 50, 30% were current Nebraska administrators, 24% were practicing Nebraska teachers, 8% were members of governance in Nebraska (State School Board), 24% were teacher education institution representatives, and 14% were 'other' stakeholders including Nebraska Department of Education representatives. During the presentation, two-teacher education faculty shared the Nebraska Clinical Evaluation Rubric with the stakeholders. Members of each table group were asked to have first a conversation regarding importance of the nineteen items on the rubric. Each individual was asked to rate the individual nineteen criteria on rubric, using Lawshe content validity testing terms of essential, useful, or not necessary. Members of the NCTE and NACTE served as the Content Evaluation Panel. This was done to establish content validity. According to Lawshe, a "Content Evaluation Panel" composed of persons knowledgeable about the job. Best results have been obtained when the panel is composed of an equal number in incumbents and supervisors" (Lawshe, 1975, p. 566). The panel follows this recommendation about half of the scorers being public school employees and half of the scorers being teacher education and governance members. Panel participants were asked to measure each criterion according to the following ratings: E-essential, U-useful but not essential, or N-Not necessary. These ratings were compiled and the results calculated according to the *content validity* ratio (CVR).

On the Nebraska Clinical Evaluation Rubric, the	Lawshe CVR
